

SANDY RUN REGIONAL PARK

Starting from Regatta HQ and moving through the park and away from the river.

Lot A - where boat trailers are staged. The Park Rangers will open slots in this lot occasionally for the smaller regattas (after the last of the boat trailers arrive).

Lot B (115 Spots) - Across from the boat trailer lot. This is where the coaches park

Grass Lot (35 Spots) - This lot is held by the Park as a tent site for the rowers during the bigger regattas. For the smaller regattas they are held by the Park Manager until after the last boat trailer arrives River side of the road.

Pedestrian row (32 spots) - open by the Park Ranger occasionally.

Lot C (70 spots) - spots held for handicap attendees and where all the shuttles run from. This lot is on the left as you are coming into the park and is where they run shuttles to the river from.

Lot D (200 spots) - the last lot still in the Sandy run park. Large gravel lot on the right as you are coming into the park.

Loisvale Lot (155 Spots) - The first lot outside the main part of the park. Loisvaile is the name of the gravel road that folks need to turn down to get to this lot. The Road is a right hand turn just before the last house on the right as you are travelling towards the Park. It is the 1st right after Van Thompson splits to the left at Harrivan Ln. The lot actually is Park property.

Van Thompson Lot (250 spots) - The last of the lots at Sandy Run. It is on the right as you turn off of Hampton Road onto Van Thompson. This is where they do the rower drop off and collect parking money. Shuttle Bus service is provided from this lot.

Commuter Lot at 123 and Old Bridge Road (1325 Old Bridge Road). This is the over-flow lot used during large regattas. Take a right on 123 off of Hampton Road. Continue on 123 for 3.7 miles (over the Occoquan). When you see a 7-11 and Shell, you are getting close. You have to make the right onto Old Bridge Road and turn left into the parking lot. Shuttle Bus Service is provided when VASRA uses this lot.
